### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Saeid Mirsafian (Reg. # 52,035) on 09/26/2007.

The application has been amended as follows:

- A) In line 14 of claim 1, "a lower side" has been changed to --the lower side--.
- B) In line 3 of claim 14, "element" has been deleted.
- C) In lines 4 and 5 of claim 15, "the holding member" has been changed to --the holding element--.

The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches or fairly suggests the implant of independent claims 1 and 26 wherein "the closure element is movable from a first position spaced from the abutment wherein a lower side of the closure element contacts the rod to a second position wherein the lower side of the closure element directly contacts both the abutment and the rod."

Nor does the prior art of record teach or fairly suggest the method of independent claim 13 and comprising the step of "fixing the rod in the implant, wherein the fixing step includes tightening of the closure element by applying strong forces to tilt the closure element about the rod until stopped against further forward movement by the abutment.
